Junior Science Club

General information

Junior Science Club is a cocurricular activity for Years 7-8 (2027) which offers an exciting opportunity for students to explore the fascinating world of science beyond the classroom. Members take part in hands-on experiments, investigations, projects, and competitions, fostering curiosity and scientific thinking. The club encourages collaboration, creativity, and problem-solving as students engage with science both within the school and the wider scientific community.

Venue	SC13
Transport	N/A
Uniform	School uniform
Cost	N/A
Resources required	N/A

Change to activity

Meriden aims to keep any changes to cocurricular activity times and venues to a minimum; however, adjustments may occasionally be necessary due to unforeseen circumstances.

Any cancellation of sessions will be communicated to parents through the Meriden Parent App and eVe.

Attendance

Meriden encourages all girls to be involved in cocurricular programs. Participation in activities requires commitment and positive engagement. Consistent attendance helps students develop technical and soft skills, responsibility, and a sense of belonging within the school community.

Students who are unable to attend a session are expected to notify the activity coordinator with a reason for absence. Students who demonstrate low levels of attendance or engagement may be asked to meet with Mr Richard Hughes, the Dean of Student Involvement, or withdraw from the activity.

Withdrawal

While students are encouraged to commit to cocurricular activities, we understand that sometimes students may choose to withdraw due to changes in school workload, other commitments or to explore new opportunities. If this happens, students should discuss their situation with their parents and the activity coordinator. A withdrawal request should then be sent to the activity coordinator to ensure smooth communication.
